### **About the VXA-2 PacketLoader 1x7 Desktop Autoloader**

The VXA AutoPak1x7 autoloader provides huge capacity at a small price. Over 1TB of hands free automation, priced under \$3500!

What makes the VXA AutoPak1x7 so popular? This product allows DDS users to migrate to a higher capacity, higher performance tape backup product at the same entry-level cost to which they are accustomed. VXA technology is quickly becoming the standard for DDS replacement and is currently available through IBM, Compaq, Apple, Fujitsu and Toshiba.

Save time and money! With one integrated VXA-2 tape drive and up to 7 cartridge slots, the VXA AutoPak1x7 is easy to use. Automated back up and restore operations will save you time and money by dramatically reducing down time, user error and resource obligations.
